City wide energy chain

EIFER

Integrated approach to modelling the entire energy chain on a city scale

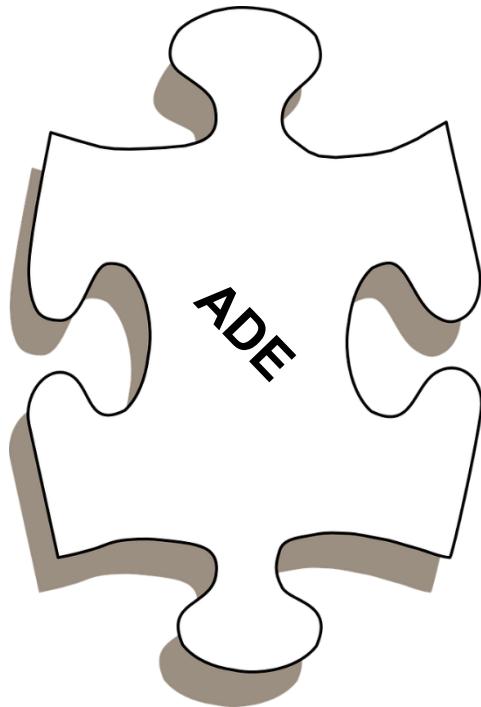

Majority of modelling/simulation situation from substation to production facility

Modelling of demand at house/district/ neighbourhood level

City models

Application Domain Extension

Standard extended for specific applications starting from the UML

UML modeling approach for ADE's

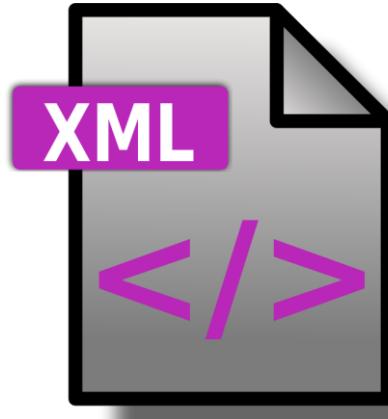

EIFER has made 2017 the EIFER-ADE year by hosting:

- March UtilityNetworkADE
- December The common EnergyADE and the UtilityNetworkADE
